

# Plain language summaries (PLS) cover sheet to help team

POWERING  
PATIENT VOICES

This document provides the sponsor team with key information about the draft PLS to provide context and facilitate the review process

## 1 General information

PLS type	Plain language summary of
PLS title	
PLS author	
Key sponsor contact	

## 2 Development and review process overview

Content and format	Content has been developed in accordance with the Plain Language Summaries Toolkit, co-created with patients ( <a href="http://www.envisionthepatient.com/plstoolkit">www.envisionthepatient.com/plstoolkit</a> ). Sponsor/journal PLS guidelines have also been followed (see below)
	<p>The primary target audience for this PLS is patients. The content of this PLS accurately reflects the key results included in the associated scientific publication. Detailed data and complex analyses have not been included.</p> <p>The full scientific content can be accessed here:</p>
Sponsor review required	
Incorporation of review comments	Patient reviewers have provided valuable feedback on PLS drafts. All review comments will be carefully considered and incorporated as appropriate and consistent with PLS best practices

### Review process

### 3 Background information

Why is a PLS being developed for this content?	
Has the lead author of the original scientific publication reviewed the PLS/been informed?	
Has a patient been involved as an author/reviewer?	
Where will the PLS be archived/accessed (eg, QR code, journal website)?	
Are there any specific publisher requirements to be considered?	

### 4 Readability assessment

Was a valid readability tool used (eg, Readable)?	
Readability tool used	
Readability score*	

\* Please note that overall readability may be reduced by necessary technical terms included in the PLS

### 5 Suitability assessment

Was a valid document suitability tool used (eg, PEMAT, SAM)?	
Suitability tool used	
Suitability tool score	

Sponsor/journal PLS guidelines followed:
